

Chorus America Online Seminar

Tools for the Board-Building Process

Building your board is an on-going process. Consider the following things to help you along the way:

- Add community members to an all-singer board
- Organizational assessment will provide a snapshot of the strengths and weaknesses of your current board
- Clearly articulated plans for the future will suggest the additional skills and expertise that are needed
- A specific board recruitment process will enable your chorus to be proactive in finding individuals to meet needs
